KATIE YOUNG

Las Vegas, NV · 937-239-2748 · katie.f.young@me.com · www.linkedin.com/in/dev-katie-young/

I am a front-end web developer passionate about creating intuitive and visually appealing user experiences. With over three years of experience, I've developed a strong foundation in Javascript, React, and CSS, with a special focus on Shopify development. At Art Brand Studios, I led e-commerce projects that increased user engagement by 25%, while at Sandstone, I built responsive web applications for high-profile clients. My goal is to leverage my expertise in front-end technologies to deliver clean, efficient code and create seamless digital experiences.

PROFESSIONAL EXPERIENCE

Art Brand Studios   Oct 2023 – Present
Lead Shopify Developer
- Led the development of 3 e-commerce websites using Javascript, Liquid, CSS, and HTML, enhancing overall product quality, UX/UI, and conversions.
- Implemented redesigns and updates based on experience design principles, boosting user interaction by 25%.
- Integrated third-party APIs to extend website functionality, showcasing ability to work with complex data systems.
- Collaborated closely with product management teams to oversee the development and launch of new products on the Shopify platform.

Sandstone   Apr 2022 – Aug 2023
Software Engineer
- Built responsive web applications for high-profile clients using React, JavaScript, and modern CSS frameworks.
- Developed dynamic product display pages and navigation menus, demonstrating strong UX/UI product development skills.
- Utilized RESTful APIs, CMS technologies, and GraphQL to create data-driven web applications.
- Implemented state management solutions using Redux for complex application architectures.
- Collaborated in an Agile environment, consistently delivering features over two-week sprints.
- Acquired proficiency in Shopify, Liquid, and Ruby while on the job.

Dolthub   Nov 2021 – Apr 2022
Software Engineer Intern
- Developed features for web applications using React, TypeScript, and GraphQL.
- Created a custom responsive carousel for the company's landing page, showcasing animation and problem-solving skills.
- Implemented pixel-perfect frontend designs based on Figma mockups.
- Increased automated test coverage by 15% through implementation of Cypress and Jest.
